Landscape Designer – Atlanta Office – Entry Level Experience

Starr Whitehouse, an award-winning landscape architecture and urban planning practice based in New York City, Atlanta, GA and Hudson, NY, seeks a motivated landscape designer with 0-3 years of experience for our Atlanta office. As one of the most dynamic and fastest-growing urban areas in the nation, Atlanta is helping to define how communities across the United States respond to the challenges and opportunities of urban life in the decades ahead. Our Atlanta studio helps communities, institutions and local governments across the region meet the moment through innovative open space and urban design. Recent work includes: developing community-driven park designs; balancing ecology and recreation on the Chattahoochee River; integrating flood protection with environmental education in underserved communities; transforming a historic mall into a vibrant and walkable urban district; designing affordable housing landscapes with a focus on community health and well-being; and re-imagining a vehicular corridor as a safe and welcoming “front door” for the Georgia Tech community.

Starr Whitehouse’s Atlanta studio seeks to hire an Atlanta-based, entry-level landscape designer to contribute design and production on projects across all three Starr Whitehouse offices. The ideal candidate is a talented designer with attention to detail, sound judgment, a familiarity with ecological and sustainable principles of landscape architecture, and a passion for solving the biggest challenges facing the field today. Join our growing team and collaborate with leading professionals in a creative, energetic atmosphere that is challenging to team members and attentive to quality of life.

Requirements:

- Passion for design
- Degree in landscape architecture from an accredited university program
- Experience working in a professional design office is a plus
- Strong desire to learn, engage with others, and build technical knowledge
- Ability to clearly translate and elaborate on design ideas from others
- Ability to efficiently produce accurate and high-quality drawings with guidance
- Excellent written, verbal, and graphic communication skills (English fluency)
- Excellent organizational skills
- Basic understanding of project budgets and their relationship to individual effort
- Proficiency in AutoCAD, 3D modelling, Bluebeam Revu, visualization and creating presentations (Rhino, Lumion, Adobe Creative Suite)

Additional Skills:

- Specialization in ecology, sustainability, or experience with waterfront or wetland environments
- Experience with public agency / municipal submissions and approvals
- Experience with ArcPro / ArcGIS
