Landscape Designer/Architect – Hudson Office – 3-5 Years of Experience

Starr Whitehouse is a landscape architecture, planning, and urban design firm with offices in New York, Atlanta, and Hudson. Our mission is to shape beautiful and resilient civic spaces that connect people to nature and each other. Our team seeks a motivated landscape designer or landscape architect with 3-5 years of experience for our Hudson office. Help us address climate change, resiliency, park design, open space equity, urban design, streets and public spaces, green infrastructure and multifamily housing on projects across New York State and beyond.

Hudson is a small yet vibrant city with a rich history and an active creative culture. The Hudson studio builds on knowledge of local ecologies and communities, bringing comprehensive design thinking and creativity to the fabric of river towns, regional parks and private developments in the Hudson Valley and across New York State. We collaborate with internationally acclaimed architects and engineers and foster a creative, energetic atmosphere that is challenging to team members and attentive to quality of life.

The landscape designer position will work with teams across all three Starr Whitehouse offices, contributing to the design and production of projects. The ideal candidate is a talented designer with a passion for solving the biggest challenges facing the field today, attention to detail, sound judgment, and a familiarity with ecological and sustainable principles of landscape architecture.

Qualifications:

- Degree in landscape architecture from an accredited university program
- 3-5 years of experience working in a professional design office

Required Skills:

- Passion for design
- Strong desire to learn, engage with others, and build technical knowledge
- Ability to clearly translate and elaborate on design ideas from others
- Ability to efficiently produce accurate and high-quality drawings
- Excellent written, verbal, and graphic communication skills (English fluency)
- Excellent organizational skills
- Basic understanding of project budgets and their relationship to individual effort
- Proficiency in AutoCAD, 3D modeling, Bluebeam Revu, visualization and creating presentations (Rhino, Lumion, Adobe Creative Suite)

Additional Skills:

- Specialization in ecology, sustainability, or experience with waterfront or wetland environments
- Experience with public agency / municipal submissions and approvals
